Booker EPoS link now available with PayPoint One Pro

Welwyn Garden City, 23 March 2020

After a successful national trial with over 50 participating retailers, PayPoint is pleased to announce that an EPoS link is now available to PayPoint One Pro retailers who are members of Premier, Family Shopper and Shop Locally.

Retailers will benefit from daily price updates, monthly consumer promotions, the ability to place orders through the PayPoint One mobile app and receive electronic delivery notes to update stock. The link will help retailers operate a more efficient business and free up time to run their store.

Now live in over 16,000 stores, PayPoint One is the market-leading, all-in-one retail services platform that delivers EPoS, contactless card payments and PayPoint services – such as bill payments and Collect+ – to retailers. It enables retailers to operate their businesses more efficiently and offer everything a modern convenience store needs across three levels of functionality - Base, EPoS Core and EPoS Pro (see notes to editors for more detail).

EPoS Pro launched in 2017 alongside the PayPoint One mobile app, available on iOS and Android, which uniquely equips retailers with a 'store in their pocket' – providing easy, intuitive access to sales data and allowing them to manage prices and promotions, and book in stock from any location and at any time.

Lewis Alcraft, PayPoint's Chief Commercial Officer, commented, "We're delighted that Premier, Family Shopper and Shop Locally retailers are now able to benefit from an EPoS link which will help them run a more efficient business. Receiving automatic downloads direct to their system will free up their time so they can concentrate on running their business with the improved technology and experience that PayPoint One delivers. We've had great feedback from the trial, and we're particularly pleased that our unique PayPoint One mobile app is helping retailers transform the way that they manage their stores."

Retailers can find out more about the benefits PayPoint One by visiting www.paypoint.one or calling 01707 537 014

ABOUT PAYPOINT

In thousands of retail locations, at home and on the move, we make life more convenient for everyone.

For retailers, we offer innovative and time-saving technology that empowers convenience retailers in the UK and Romania to achieve higher footfall and increased spend so they can grow their businesses profitably. Our innovative retail services platform, PayPoint One, is now live in over 16,000 stores in the UK and offers everything a modern convenience store needs, from parcels

and contactless card payments to EPoS and bill payment services. Our technology helps retailers to serve customers quickly, improve business efficiency and stay connected to their stores from anywhere.

We help millions of people to control their household finances, make essential payments and access in-store services, like parcel collections and drop-offs. Our UK network of 28,000 stores is bigger than all banks, supermarkets and Post Offices together, putting us at the heart of communities nationwide.

For clients of all sizes we provide cutting-edge payments technologies without the need for capital investment. Our seamlessly integrated multichannel payments solution, MultiPay, is a one-stop shop for customer payments. PayPoint helps over 500 consumer service providers to save time and money while making it easier for their customers to pay – via any channel and on any device.

NOTES TO EDITORS

PayPoint One is an all-in- one retail services platform that offers EPoS, card payments and PayPoint services to retailers.

There are three levels of functionality available on the platform:

1. Base functionality enables retailers to operate a simple cash register via the platform with integrated card payments and single basket checkout for all goods and PayPoint services.
2. EPoS Core enables retailers to manage front of house operations more efficiently, with product scanning, news management, sales dashboards and all of the integrated payment benefits of the Base level.
3. EPoS Pro gives retailers a complete EPoS solution, with full stock management, enhanced reporting and symbol/wholesaler links, along with all of the benefits of Base and EPoS Core.

PayPoint One mobile app frees retailers from their store, enabling them to manage their businesses from anywhere, controlling stock, changing pricing and seeing sales in real-time.

The app is available to all PayPoint One retailers with functionality matched to their EPoS package level.
