Paypoint Donate Launched To Leverage Digital Solutions For The Acquisition And Reconciliation Of Payments And Donations For Charities

London, 24th June 2022 – Following the appointment of Jason Levy to lead its Strategic Development and Partnership plans in the charity sector, digital payments expert PayPoint is announcing the launch of PayPoint Donate.

PayPoint Donate brings together an innovative digital solution to provide charities and their supply partners with an integrated single platform to support the acquisition donors and seamless reconciliation of payments and donations.

The creation of PayPoint Donate formalises the organisations intent to ensure its range of recently released digital solutions, including Open Banking, Pay-By-Link, Cash Out and e-vouchers, benefit the charity sector. Alongside its tried and tested services - Direct Debit, card payments and text donations – PayPoint Donate is also drawing upon its 28,000 strong retailer platform to benefit its charity clients by offering their supporters the convenience of donating at a local level.

Jason Levy, Charities Strategic Development and Partnerships Lead at PayPoint said, “By partnering with PayPoint Donate as a single or multi-channel provider of acquisition and donation reconciliation services, charities can and will benefit from simplified integration, market-leading innovations and exemplary customer support. In addition, our digital payment channels are ISO and PCI DSS compliant giving them and those that donate to them, the utmost peace of mind. Indeed, we excel in enhancing the consumer experience to ensure our charity clients benefit from loyalty and retention.”

PayPoint Donate aims to successfully support charities and their supply partners through working in partnership to innovate donation processing and ultimately further enhance the donor experience.

MultiPay is PayPoint’s portfolio of pioneering omnichannel payments solutions, which today serve a diverse range of consumer service and retail businesses across the UK. Widely recognised as a one-stop-shop of customer payment options which help organisations reduce the cost of collections, increase arrears payments and add value to the customer experience.
