

PayPoint introduces new Collect+ mobile app for retailers

'StoreScan' makes managing parcels in-store even easier

Welwyn Garden City, 10 December 2018: PayPoint today announces the arrival of Collect+ StoreScan, a brand new, free-to-use app that enables retailers to process parcels quickly and easily, directly from their mobile device. Available on iOS and Android, Collect+ StoreScan means

that retailers no longer have to process parcel transactions solely via their PayPoint terminal. Parcel delivery and customer collections can be processed from anywhere in the store, helping to free valuable counter space and reduce customer waiting times.

The Collect+ StoreScan mobile app has been designed based on feedback from retailers offering the Collect+ service. Up to ten mobile devices in one Collect+ location can use the app concurrently and it also works when the PayPoint terminal is being operated by another user. Available to download now from the App Store and Google Play, the app has been launched in time for peak parcel season, helping retailers to increase efficiency and enhance customer service instore during the busiest time of the year.

Key features of Collect+ StoreScan:

- Driver deliveries – scan or key in parcels quickly and easily. A receipt gets automatically sent to the retailer's registered email address.
- Customer collections – scan or key in customer's collection code

"We are always looking for ways to innovate and enhance the range of services we offer to our convenience retail partners," said Lewis Alcraft, Commercial Director at PayPoint. "StoreScan is a great addition to Collect+; it gives retailers the flexibility and freedom to handle parcel transactions away from the counter, all from the convenience of their mobile device."

Retailers offering the Collect+ service can download the iOS version at <https://itunes.apple.com/gb/app/collect-storescan/id1444324173?mt=8> , Android version at <https://play.google.com/store/apps/details?id=com.collectplusstorescan> or by searching 'collect+ storescan'.

ABOUT PAYPOINT

In thousands of retail locations, at home and on the move, we make life more convenient for everyone.

For retailers, we offer innovative and time-saving technology that empowers convenience retailers in the UK and Romania to achieve higher footfall and increased spend so they can grow their businesses profitably. Our innovative retail services platform, PayPoint One, is now live in over 11,200 stores in the UK and offers everything a modern convenience store needs, from parcels and contactless card payments to EPoS and bill payment services. Our technology helps retailers to serve customers quickly, improve business efficiency and stay connected to their stores from anywhere.

We help millions of people to control their household finances, make essential payments and access in-store services, like parcel collections and drop-offs. Our UK network of 29,000 stores is bigger than all banks, supermarkets and Post Offices together, putting us at the heart of communities nationwide.

For clients of all sizes we provide cutting-edge payments technologies without the need for capital investment. Our seamlessly integrated multichannel payments solution, MultiPay, is a one-stop shop for customer payments. PayPoint helps over 500 consumer service providers to save time and money while making it easier for their customers to pay – via any channel and on any device.
