PayPoint launches discounted broadband offer for PayPoint retailers

Welwyn Garden City, 29 November 2011: PayPoint has extended its range of Support Services by offering a competitive rate for Business Grade Broadband exclusively for its retailers.

The new Business Broadband deal through TalkTalk Business is offered to all retailers with a PayPoint terminal from just £10.50 per month* and provides faster speeds, greater levels of support and enhanced security.

“This is a great deal for our retailers,” says Seamus Smith, Managing Director of PayPoint UK. “They can install it at the shop or at home – wherever they do their paperwork – and benefit from unlimited usage allowance and dedicated business support. With speeds of up to 24Mbps, depending on local availability, it’s a great way to access MyPayPoint, the extranet exclusively for our retailers.”

This Business Grade Broadband deal is the latest in a range of partnerships with suppliers that PayPoint has established to bring the savings available to multiple and industry groups to independent retailers, which they would be unable to obtain on their own. Other deals exclusively available to PayPoint retailers include:

Banking with Barclays: with cash deposits costing just 15p per £100, this represents a saving of up to 69% on the bank’s standard business tariff – and much more for many retailers on higher tariffs. There is no monthly fee for this account;

Retail insurance: tailor-made policies include £1m blanket cover for fixtures, fittings, stock and business interruption, £5m public and product liability cover, a 25% increase in money limits for bank holidays, no hidden clauses and an advice helpline;

Security Services: Raid Control and cash transport with G4S to make the business safer, often resulting in reduced insurance premiums and exposure to uninsured risk;

Energy: an exclusive gas and electricity scheme with preferential prices with Utility Savings Corporation;

CCTV: exclusive CCTV systems designed specifically for retailers;

Safes: great deals from A to Z Safes on approved safes to suit all retailers’ needs;

Web Design: exclusive retail website designs for online trading provided by Shopcreator.

Seamus Smith adds: “Our new broadband deal is yet another great benefit for our retailers in an unbeatable package that drives straight through to the bottom line.”
