PayPoint launches news management offer with PaperRound for PayPoint One

Welwyn Garden City, 10 May 2018: PayPoint have integrated with PaperRound, a news management system, allowing PayPoint One retailers to manage their newspaper and magazine stock from Smiths News or Menzies.

Retailers will have access to a free version of the tool, Counter News, which provides daily updates of publication barcodes and prices together with a firm or sale-or- return flag. Return quantities are automatically calculated for easy management of newspaper and magazine credit and wastage tracking. The service can also hold up to 30 customer accounts ('Shop Saves') where customers can pay for their goods on account.

The announcement marks the start of a number of supplier partnerships due to be available to PayPoint One users in the coming months, with Nisa and Booker links already in live tests.

Discussing the launch, **Lewis Alcraft, Commercial Director**, said: "*We are excited to be launching the PaperRound integration for PayPoint One.*"

"News management is critical to running a successful convenience store and we're delighted to be partnering with PaperRound to enhance our EPoS capability. The development with PaperRound will be immediately available to the thousands of retailers who have adopted PayPoint One in their stores."

PaperRound is available to PayPoint One retailers now – find out more information at www.paypoint.com/paperround.
