PayPoint One app now available on iOS

Welwyn Garden City, Date: PayPoint has today introduced a free iOS mobile app for PayPoint One retailers. The app helps retailers connect to their stores from anywhere via PayPoint One – PayPoint’s next generation EPoS platform designed with integrated bill payment, card and parcel services. Over 11,000 retailers across the UK now use PayPoint One to help them save time, get valuable business insights and grow profitability.

PayPoint One is a mobile first retail platform designed to meet the needs of convenience store retailers. The smart phone app enables store owners to have their ‘store in their pocket’ with the ability to manage their businesses from anywhere in the world. The app gives PayPoint One retailers access to business management tools such as a real-time sales dashboard. Retailers with the PayPoint One Core and Pro packages can use additional features, including advanced product, price and promotion features, stock inventory management and supplier orders.

Lewis Alcraft, Commercial Director of PayPoint said, “We know that Apple devices are extremely popular with our retail partners, so the rollout of the iOS PayPoint One app is a key part of the evolution of the platform. We’re excited to give even more people the freedom and flexibility to manage their stores from anywhere and will continue to expand and improve on PayPoint One so that retailers are prepared for the technology landscape of the future.”

ABOUT PAYPOINT

In thousands of retail locations, at home and on the move, we make life more convenient for everyone.

For retailers, we offer innovative and time-saving technology that empowers convenience retailers in the UK and Romania to achieve higher footfall and increased spend so they can grow their businesses profitably. Our innovative retail services platform, PayPoint One, is now live in over 11,000 stores in the UK and offers everything a modern convenience store needs, from parcels and contactless card payments to EPoS and bill payment services. Our technology helps retailers to serve customers quickly, improve business efficiency and stay connected to their stores from anywhere.

We help millions of people to control their household finances, make essential payments and access in-store services, like parcel collections and drop-offs. Our UK network of 28,000 stores is bigger than all banks, supermarkets and Post Offices together, putting us at the heart of communities nationwide.

For clients of all sizes we provide cutting-edge payments technologies without the need for capital investment. Our seamlessly integrated multichannel payments solution, MultiPay, is a one-stop shop for customer payments. PayPoint helps over 500 consumer service providers to save time and money while making it easier for their customers to pay – via any channel and on any device.
