PayPoint One now in over 14,000 stores

Milestone follows recent award win at UK Digital Experience Awards

Welwyn Garden City, 29 July 2019: PayPoint today announces that PayPoint One is now live in over 14,000 stores across the UK.

PayPoint One has transformed the way that its retail partners deliver convenience and offers everything a modern convenience store needs by combining EPoS, parcels, card and bill payments into a single device. Store owners can also manage their businesses in real-time from anywhere through PayPoint's cloud-based technology and free mobile app. Retailers who opt for PayPoint One do not need to make an upfront payment and can choose the service level that best suits their needs. All PayPoint One retailers also receive free membership with the Association of Convenience Stores, offering access to expert advice and best practice from across the industry.

Recent features introduced by PayPoint include a smartphone app that runs on iOS and Android devices, and an inventory scanning feature for retailers who offer parcel services. The service also recently won 'Best Use of Digital Devices and Software' at the prestigious UK Digital Experience Awards, beating brands including EE.

Lewis Alcraft, Chief Commercial Officer for PayPoint, commented: *"We're thrilled to reach this milestone and welcome so many new retailers to our cutting-edge platform. PayPoint One continues to evolve to transform convenience retail for the customer and our retail partners, and we're delighted that the store owners who have recently joined us will very soon be experiencing the exciting benefits of using our platform."*

Ken Singh of Mill Hill Store in Pontefract said: *"PayPoint one adds value and streamlines my business. I love the all-in-one capabilities and the integration of EPoS, secure integrated card payments and bill payments. I've also seen a decrease in errors on the bill payment facility as nothing is credited until checkout."*
