PayPoint One passes 11,000 store milestone

Welwyn Garden City, 30 November 2018: PayPoint today announced that over 11,000 stores are now using PayPoint One and benefitting from the technology and enhanced experience it brings.

Launched in 2016, PayPoint One is the market-leading, all-in-one retail services platform, delivering the full benefit of advanced cloud-based EPoS technology, contactless card payments and PayPoint services, such as bill payments and Collect+. With three levels of functionality – Base, EPoS Core and EPoS Pro - PayPoint One offers everything that a modern convenience store needs. The 11,000 milestone means well over half of PayPoint's independent retailers have now converted to the new platform. PayPoint's legacy yellow terminal will be retired during 2019.

Lewis Alcraft, Commercial Director for PayPoint, commented: "We're delighted to achieve this latest milestone, which further demonstrates our retail partners' appetite for adopting exciting new technologies for their stores. Feedback has been extremely positive and it's great to see a fast-growing number of retailers benefitting from the enhanced experience and business management that PayPoint One offers."
