PayPoint Romania signs up Schuster & Co Ecologic

Bucharest, 20 March 2015: PayPoint Romania, the leading retail-based bill and mobile top-up payment service in Romania, has signed a contract with Schuster & Co Ecologic, a waste management company, to enable Schuster's customers in the Municipality of Sibiu and the communities of Selimbar, Rasinari and Orlat to pay their bills at PayPoint.

PayPoint terminals are found in local convenience stores, which generally have long opening hours, making paying bills there easier and more convenient.

To make a payment, the customer simply takes their bill to the nearest store with a PayPoint terminal. There, the shop attendant scans the bill's barcode, the customer pays in cash and receives a receipt with all the transaction's details (date, amount, location, supplier etc). The whole process is very quick and there is no extra fee!

"We are very pleased to be announcing this agreement, because it means we're enabling residents of Sibiu to pay for an even greater variety of services through PayPoint. We have no doubt that our partnership with Schuster & Co Ecologic will be a success because any solution that simplifies the payment process is valued by our consumers," said **Mugur Dogariu, Managing Director of PayPoint Romania.**

"We are always looking for ways to meet our customers' needs and this agreement with PayPoint means we can make the bill payment process easier for them, regardless of whether they are in the Municipality of Sibiu or in the rural areas we serve, because all of them will be able to pay their bill quickly and securely in convenience stores close to where they live," added **Gheorghe Barbu of Schuster & Co Ecologic.**

The new agreement strengthens PayPoint's position in Central Romania. Along with paying bills issued by Schuster & Co Ecologic, consumers are also able to use PayPoint terminals to pay bills for gas, electricity, mobile phone plans, internet or cable TV and pay for their road tax, as well as buy mobile phone top-ups and even transfer money, both internally and internationally, at selected PayPoint locations.
